

For almost 40 years, we have been working with institutional and large private investors, supporting them in the planning, design and monitoring of financing processes. Our customized services in the areas of investment reporting, investment controlling, investment consulting and investment accounting are used by decision-makers in Switzerland and abroad. With this offering, we help our clients achieve greater efficiency in the investment process by creating structure and transparency, and thus an optimal basis for decision-making.

To strengthen our team in St. Gallen, we are looking for an enthusiastic and solution-oriented personality as a

Software- / Data-Engineer SQL 80-100% (f/m/d)
